If you have any questions, please email us at seminar@craniobiotic.com.

We are looking forward to seeing you there!

Tony Smith, DC

Testimonials from Dr. Lee Cowden and Dr. David Ou

I attended Dr. Tony Smith's Craniobiotic course in Spokane, Washington at the end of April 2025 and I was VERY glad I did because of how much Dr. Smith's methods have helped my son's health.

My son had been bitten by multiple ticks and mosquitos while hunting in East Texas at age 14. He became somewhat ill then but was still able to finish high school. Not long after high school he got married and had 3 children with a LOT of emotional stress. His health gradually worsened. I was Lyme illiterate until about 2003 but not long after that recognized my son had chronic Lyme with multiple co-infections. My son went thru MANY therapies over the next several years, but still had severe headaches, joint aches, fatigue and other symptoms. He then learned about LymeStop and decided to go there for treatment. My son said he got more benefit from that brief appointment with Dr. Smith than any other treatment he had done up until that time. My son went back to LymeStop two more times and got additional improvement each trip.

That is when I decided to go to Dr. Smith's Craniobiotic course in April 2025. I learned enough there to help my son even further. I retired from patient care in 2019 and would definitely be using Dr. Smith's methods if I were still in practice.

*W. Lee Cowden MD, MD(H)
San Angelo, TX*

"I've been using CBT on every patient since the (2018) seminar and the results have been outstanding. I've had so many patients reach a treatment plateau prior to CBT and now they are moving forward again with CBT. Your system is absolutely brilliant, and at this point it should almost be the standard of care for most chronic health issues. Thank you so much for sharing CBT with us. It has been a gamechanger in my practice."

*Dave Ou, MD, PC
Atlanta, GA*
